Helpful Tips and Booking Advice

Helpful Tips Before your Treatments

Eyelash, Eyebrow Tinting, Lash Lift Treatments, Waxing and Sienna X Spray Tan require a patch test 48 hours before your appointment.

Do not have any heat treatments 24 hours before or after waxing, including sauna, steam, swimming, sunbathing & sunbeds.

It is recommended that you have at least three weeks of hair growth before waxing treatment (5-10mm).

After your spray tan treatment, wear loose, dark clothing and flip-flops or loose-fitting shoes. Tight clothing will cause your tan to rub off.

Remove unwanted hair 48 hours before your spray tan.

Exfoliate regularly, especially the day before a spray tan, unless you have the Full Body Exfoliation and Spray Tan combined treatment.

Do not moisturise or use skin lotion on the day of your tan. Remove makeup, deodorant, and perfume before your tan, as they can be a barrier.

If you wear contact lenses, please remove them before spray tanning, facial or eye treatments.
